FORGED CONTRA

We don't compromise on quality, and neither should you. Here at Ram Board, we provide jobsite protection products that contractors trust.

Since 1999, we've worked with the pros to create top-notch products that meet the needs of increasingly demanding jobs. We believe product improvement is never finished, which is why we'll continue to evolve our product line to meet the needs of jobsite professionals around the world.

BY CTORS

FROM THE PROS

"There is nothing more gratifying and professional than laying down Ram Board before you start working. It doesn't tear or rip easily and is always my go-to when needing to wrap the entire property. Highly recommend!"

"The Ram Board Multi-Cutter is great! It slides easy when cutting Ram Board, is easy to change the blades (what a great idea to have a magnet that keeps the blades in place), you can drag it along the floor, and it doesn't hurt the floor's surface. This tool is absolutely needed!"

"Using the best to secure, protect and construct for our customers!"

"Ram Board Stair Armor is the greatest product to help save floors during construction. The stair has always been difficult to paper, but this makes it much easier. Great idea, coming from a general contractor for residential homes!"

BETTER BOARD

AND HERE'S HOW

Surface protection may seem one-dimensional, but this just ain't true. We strive to elevate and tailor each product to the need it fills on the jobsite, improving workflow and ease of application. The main benefits of our products include these six features that stand as the pillars of success for Ram Board products.

BUILT

HEAVY-DUTY

Ram Board is built tough. The formula for the flagship Ram Board has been tested time and again by the hands of contractors. Heavy-duty quality has always been the foundation of our products and will continue to be the backbone of our brand.

WALL GUARD®

Ram Board paperboard products are equipped with our Wall Guard feature, safeguarding the area where the floor meets the wall. Just fold along the score line and you're good to go. Say adios to scuff and dirt marks from boots and equipment.

VAPOR-CURE®

All Ram Board paperboard products come standard with Vapor-Cure technology. This allows your finished surfaces to breathe, preventing cure lines while promoting even finishes. Pair your floor protection with our Vapor-Cure Tape, and you'll be breathing easy.

FLEX-FIBER®

Flex-Fiber technology provides unmatched cushion from impact, allowing the board to absorb drops or impacts in stride. Flex-Fiber also promotes flat application of the board.

SPILL GUARD®

Ram Board's Spill Guard technology is woven into the paper fibers, allowing for an extremely durable liquid holdout. Protect against water, paint, mud and more with Spill Guard.

RECYCLABLE

Ram Board is recyclable and built from 100% recycled materials. Most Ram Board products are **FSC Certified**, meeting the Forest Stewardship Council requirements.

90-DAY RAM BOARD EDGE TAPE®

PAGE 13

Say goodbye to sticky residue and wasted tape. Ram Board's 90-Day Edge Tape lays flat on the first application and is easily repositioned without losing adhesive strength. With Tru-Tear technology, 90-Day Edge Tape tears straight and easy every time. Use this revolutionary edge tape to anchor Ram Board products and other materials to your surfaces for up to 90 days* with zero residue. Pair with the Ram Board Seamer for quick installation.

90-Day Edge Tape lays flat with no curling or lifting along the edges.

**Remove within 90 days. Reference product spec sheet for warning and recommended product applications.*

RAM BOARD PRO SHEETS™

Max out your floor protection. At 40% thicker than Ram Board, this lightweight, ultra heavy-duty floor protector is the toughest Ram Board option available.
